WHERE IS CANBERRA SITUATED?

It is 285km from Sydney to Canberra. It takes about four hours in total to drive there.

It is 674km to Canberra from Melbourne, and about an 8 hour drive.

It is 247km to Canberra from Wollongong, takes three hours by car.

Construction of the current Parliament House began in 1981 and was completed in 1988.

Parliament House is 107 metres high and the floor area is 250,000m². There are 4,700 rooms in Parliament House and most of them are open to the public.
Leaders Of Parliament

Julia Gillard was born on the 24th of September 1961. She was born in Wales, and went to Mitcham Demonstration School. Julia Gillard is currently the Prime Minister of Australia. She has recently introduced the carbon tax to Australia. There has been a mixed reaction to this decision, and many people like the carbon tax and many people hate the carbon tax. The reason for this is because the tax is believed to be causing power bills to be a lot higher and many families believe they can’t afford to be paying additional money. However, many people in Australia also like the carbon tax because they believe they have a responsibility to help reduce carbon emissions and this is one way to do so. Adults want their kids to have a safe, protected future.

The carbon tax is a good thing for Australia because it is helping Australia to have a safer, cleaner future.

Tony Abbott was born on the 4th of November 1957. He was born in London, England. It is interesting to note that Tony Abbott was sent out of the chamber for calling Julia Gillard a liar. He is only the fourth opposition leader to be sent out of the chamber under rule 94A. Rule 94A sanctions against disorderly conduct, so this means the speaker can direct a disorderly member to leave the chamber.

So why does Tony Abbott have such a temper in Parliament?
