PROGRAM INFORMATION

Little and Early Learning Labs is an enrichment program designed for students who are performing in the top 10%- 15% in their area of interest within their peer group, and are seeking a challenging and fun experience during the school holidays.

All workshops are held over one (mini-labs) or two days, and are presented by teachers with specialist training or a specific interest in gifted education. There will be sponsorship places available for some participants- please see more details on how to apply for these places on the website.

WORKSHOPS ON OFFER

Learning Labs workshops cover a range of diverse and innovative disciplines that are designed to challenge and stimulate the interest of the academically gifted. Here is a taste of what's coming up for Little and Early Learning Labbers in January:

Welcome to Hogwarts

Professor Dumbledore and the other professors at Hogwarts invite you to spend two days with us taking part in a wide variety of Special Lessons. There will be classes in Transfiguration, Potions & Charms and Herbology, as well as a sorting hat ceremony!

Composer Kids

Ever wondered how songs are written? How do they record and make CD's or MP3's? Head into the studio to find out... This workshop is aimed at young musicians or music lovers with the aim of composing, recording, editing and producing an original musical composition.

What Happens When

Have you ever wondered why certain things happen? In this workshop we'll do the science experiments you wouldn't get to do in the classroom. Things will fizz, pop, smoke and explode in our quest to find what happens when....

Cruise into Creative Writing

Are you a passionate writer? Do you love to explore the wonder of words and the excitement of writing creatively? If so, this workshop is designed just for you! We will be writing and illustrating our own narrative stories, as well as delving into the fabulous world of fairytales to help us to create our own plays.

A full list of the available workshops to choose from will be posted on the website in October, 2017 when applications open. Please note that the program books up quite quickly, so ensure you submit your application as early as possible.

APPLICATION & CONTACT DETAILS
