 LOCATION: University of Wollongong
 FEE: \$85

PROGRAM INFORMATION

Little and Early Learning Labs is an enrichment program designed for students who are performing in the top 10%- 15% in their area of interest within their peer group, and are seeking a challenging and fun experience during the school holidays. All workshops are held over one (mini-labs) or two days, and are presented by teachers with specialist training or a specific interest in gifted education. There will be sponsorship places available for some participants- please see more details on how to apply for these places on the website

WORKSHOPS ON OFFER

Rock On (Year 1/2)

While walking on the beach or hiking in the mountains, have you ever picked up a rock and wondered what it was made from and where it came from? Well now it's your chance to find out!

"Rock On" is an interactive workshop where students will get the chance to explore the amazing world of rocks. You will get the chance to explore the dynamics of the physical environment and learn about processes like plate tectonics, earthquakes and volcanoes that have occurred over millions of years, and yet we still find traces of them around us. If you would like to find out more then all you need to do is just rock up.

Coloured by Light (Year 3/4)

Have you ever wondered why the grass is green or why sunsets are red?

In this workshop you will perform experiments that split white light into the rainbow and put it back together again. We will look at how light bounces between mirrors, bends through lenses, makes the small big and the big small. You will also investigate how the eye and brain work together to "see" colours and how we can use light to create feelings of hot or cold, happy or sad in theatre.

The Monster Workshop of Monsters (Year 5/6)

Werewolves and zombies and ghouls, oh my! If you love to read and write, and you're not afraid of things that go bump in the night, this is the workshop for you!

This workshop is all about building skills in English literature/media analysis and creative thinking and writing by looking at monsters in fiction and history. Monsters frighten us and fascinate us, and we use them to explore and define what makes us human.

A full list of the available workshops to choose from will be posted on the website in May, 2018 when applications open. Please note that the program books up quite quickly, so ensure you submit your application as early as possible.

APPLICATION & CONTACT DETAILS

For more detailed workshop descriptions, how to apply, FAQ's, and the online application form, please go to: uow.info/learninglabs
